SUMMARY

Frontend-focused Computer Science student passionate about building modern, responsive, and user-friendly web experiences. Skilled in React, JavaScript, Tailwind CSS, with knowledge of Java, DSA, and DBMS. Driven by creativity, problem-solving, and creating clean, impactful digital products.

EXPERIENCE

R&D Intern | Speciality Products & Services (India) LLP

Sep 2025 - Feb 2026

- Architected a responsive robotics project management website using Tailwind CSS, and JavaScript. Implemented project tracking, team assignment, and documentation features.
- Managed 700+ inventory records & database Maintenance using Java and MySQL.
- Assisted in the development and testing of a Java-based Ultrasonic Thickness Inspection Robot, including debugging and technical support activities.

Frontend Development Intern | PaulTech Software Services

May 2024 - Jun 2024

- Built a responsive Tour & Travels Website using frontend technologies featuring an interactive and user-friendly interface.
- Designed and implemented multiple web pages including Home, Destinations, Travel Packages, Booking, and Contact Sections, focusing on responsive design and smooth user experience.

EDUCATION

B.Tech in Computer Science Engineering (Lateral)

2024-2028

Jharkhand University of Technology

RVS College of Engineering and Technology

Diploma in Computer Science Engineering

2022-2025

Jharkhand University of Technology

Al Kabir Institute of Management & Technology

Percentage - 77.13%

PROJECTS

- **Personal Portfolio Website:** React.js, Tailwind CSS, Framer Motion, JavaScript (Developed a responsive personal portfolio website with interactive UI and smooth 3D animation.)
